

Our Challenges:

Internal:

- Administrative
- Salaries
- Logistics
- Staff Capacity Building
- Office equipment
- Rent
- Fundraising

External:

- Poverty levels at grass-roots
- Limiting the ability of parents to compensate madrassa teachers
- Lack of capital to improve/increase livelihood options
- Lack of access to Madrassa's by Children With Special Needs (CWSN)

Our Guiding Principles:

“He who supplicates Allah sincerely for martyrdom, Allah will elevate him to the station of the martyrs even if he dies on his bed”

Our fundamental principal of goal setting are adopted from a Prophetic perspective:

- Actions are judged by intentions
- It is not what you do that matters, but the intension behind it that matters the most
- The more powerful the intension – the greater the reward for the action, even if you don't achieve your goals.

Way Forward:

- Establish a sustainable means of supporting and sustaining Mumtaz projects (Waqf)
- Establish state-light offices in Samburu, Isiolo & Marsabit
- To support formal education of under-privileged children
- To establish inclusive madrassa's that cater for Children With Special Needs (CWSN)
- Establish micro- enterprises for women within the Islamic Tarbiyah
- To establish a Mumtaz Centre of excellence in Marsabit County
